-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the coupling of the mounting joint to the ceiling and wall (claims 9 and 10), and the brake of the mounting joint (claim 11) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1-8 and 11 are rejected under 35 U.S.C. 102(e) as being anticipated by Wang et al. (U.S. Pat. 5,855,583) for the reasons set forth in numbered paragraph 5 of the previous Office Action, paper number 5. Any of joints Js1 through Js4 (Fig.3) anticipate a mounting joint for positioning and fixing the manipulator arm. As to claim 8, note tool driver (84, Fig.7). As to claim 11, the brake comprises the powering down or non-activation of the any of the joints.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3739

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wang et al. in view of Madhani et al. (U.S. Pat. 5,807,377).

Wang et al. disclose that the robotic system is mounted to a table, cart or *some other device that places the arms proximate the plane of the patient* (col.5, lines 19-24) yet fails to specifically mention a wall or ceiling. If not inherently contemplated by Wang et al., Madhani et al. teaches a surgical robotic system that can be mounted to the table, a cart or the floor, ceiling or wall (col. 8, line 63 to col.9, line 15). Since the alternatives of mounting the robotic system to the ceiling or wall have been contemplated in the art, it would have been obvious as a matter of design alternative, preference or operating room layout for one of ordinary skill to have mounted the robotic system of Wang et al. to the ceiling or wall.

Response to Arguments

6. Applicant's arguments filed July 21, 2003 have been fully considered but they are not persuasive.

Applicant contends that the Wang et al. reference does not teach or suggest a mounting joint. It does, as described above.

Conclusion

Art Unit: 3739

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
